I love XM I love the fact it can tell me what I need to hear and not have to deal with a million commercials at the same time. this is no different than paying for cable TV...if I am paying a monthly fee why should I deal with the BS that is in the regular radio everyday!!!! why should I be forced to listen to hundreds of commercials just to get what the radio calls local info. they spend so much time dealing with their sponcers. once again I dont see why XM cannot give me what I need when I need it. I pay a a fee to get that quality service!!!! I personally think the NAB need to get over it and understand that we as listeners want to hear what we need....if its music...or news...or traffic. and not be set at the mercy of when they can squeeze it in between their sponcers spots. regular radio has become such a joke.....its nothing but DJ's talking for 20 mins..then commercials for another 10 then maybe 30 mins of music that so overplayed its not ever funny.

I dont feel as a paying costmer I should have to deal with that BS.
